Dear Sir:

In response to your letter of September 19th regarding our Society I am enclosing a circular describing this organization, and also a list of our publications of which four to six are published during the course of a year. We do not publish a magazine. Should you be interested in joining our Society I am also enclosing an application, and it is customary to supply two references of those who may know of your interest in numismatics.

Very truly yours,

HW:JG
